CO - v - Comune di Gesturi, Italian case

Summary

Directive 2000/78/EC, in particular the Articles 2(2), 3(1) and 6(1), does not preclude provisions prohibiting public administrative authorities from awarding analysis and consultancy roles to individuals who are already retired public or private employees, provided that the provisions pursue a legitimate aim in the field of employment and the labour market and the means of achieving that aim are not appropriate and necessary. This is for the referring court to determine.
